Danger
Ganesha

One of the famous gods of Hinduism, who is worshipped by the followers of Buddhism and Jainism, and features its head being (an elephant's head).

Hindus believe that it is the son of their famous god: (Shiva), and they take its statues as a means for protection or a barrier that protects them from problems and evil fate, that's why many of its pictures are hung at the gates of their temples.

Reiki
Symbols

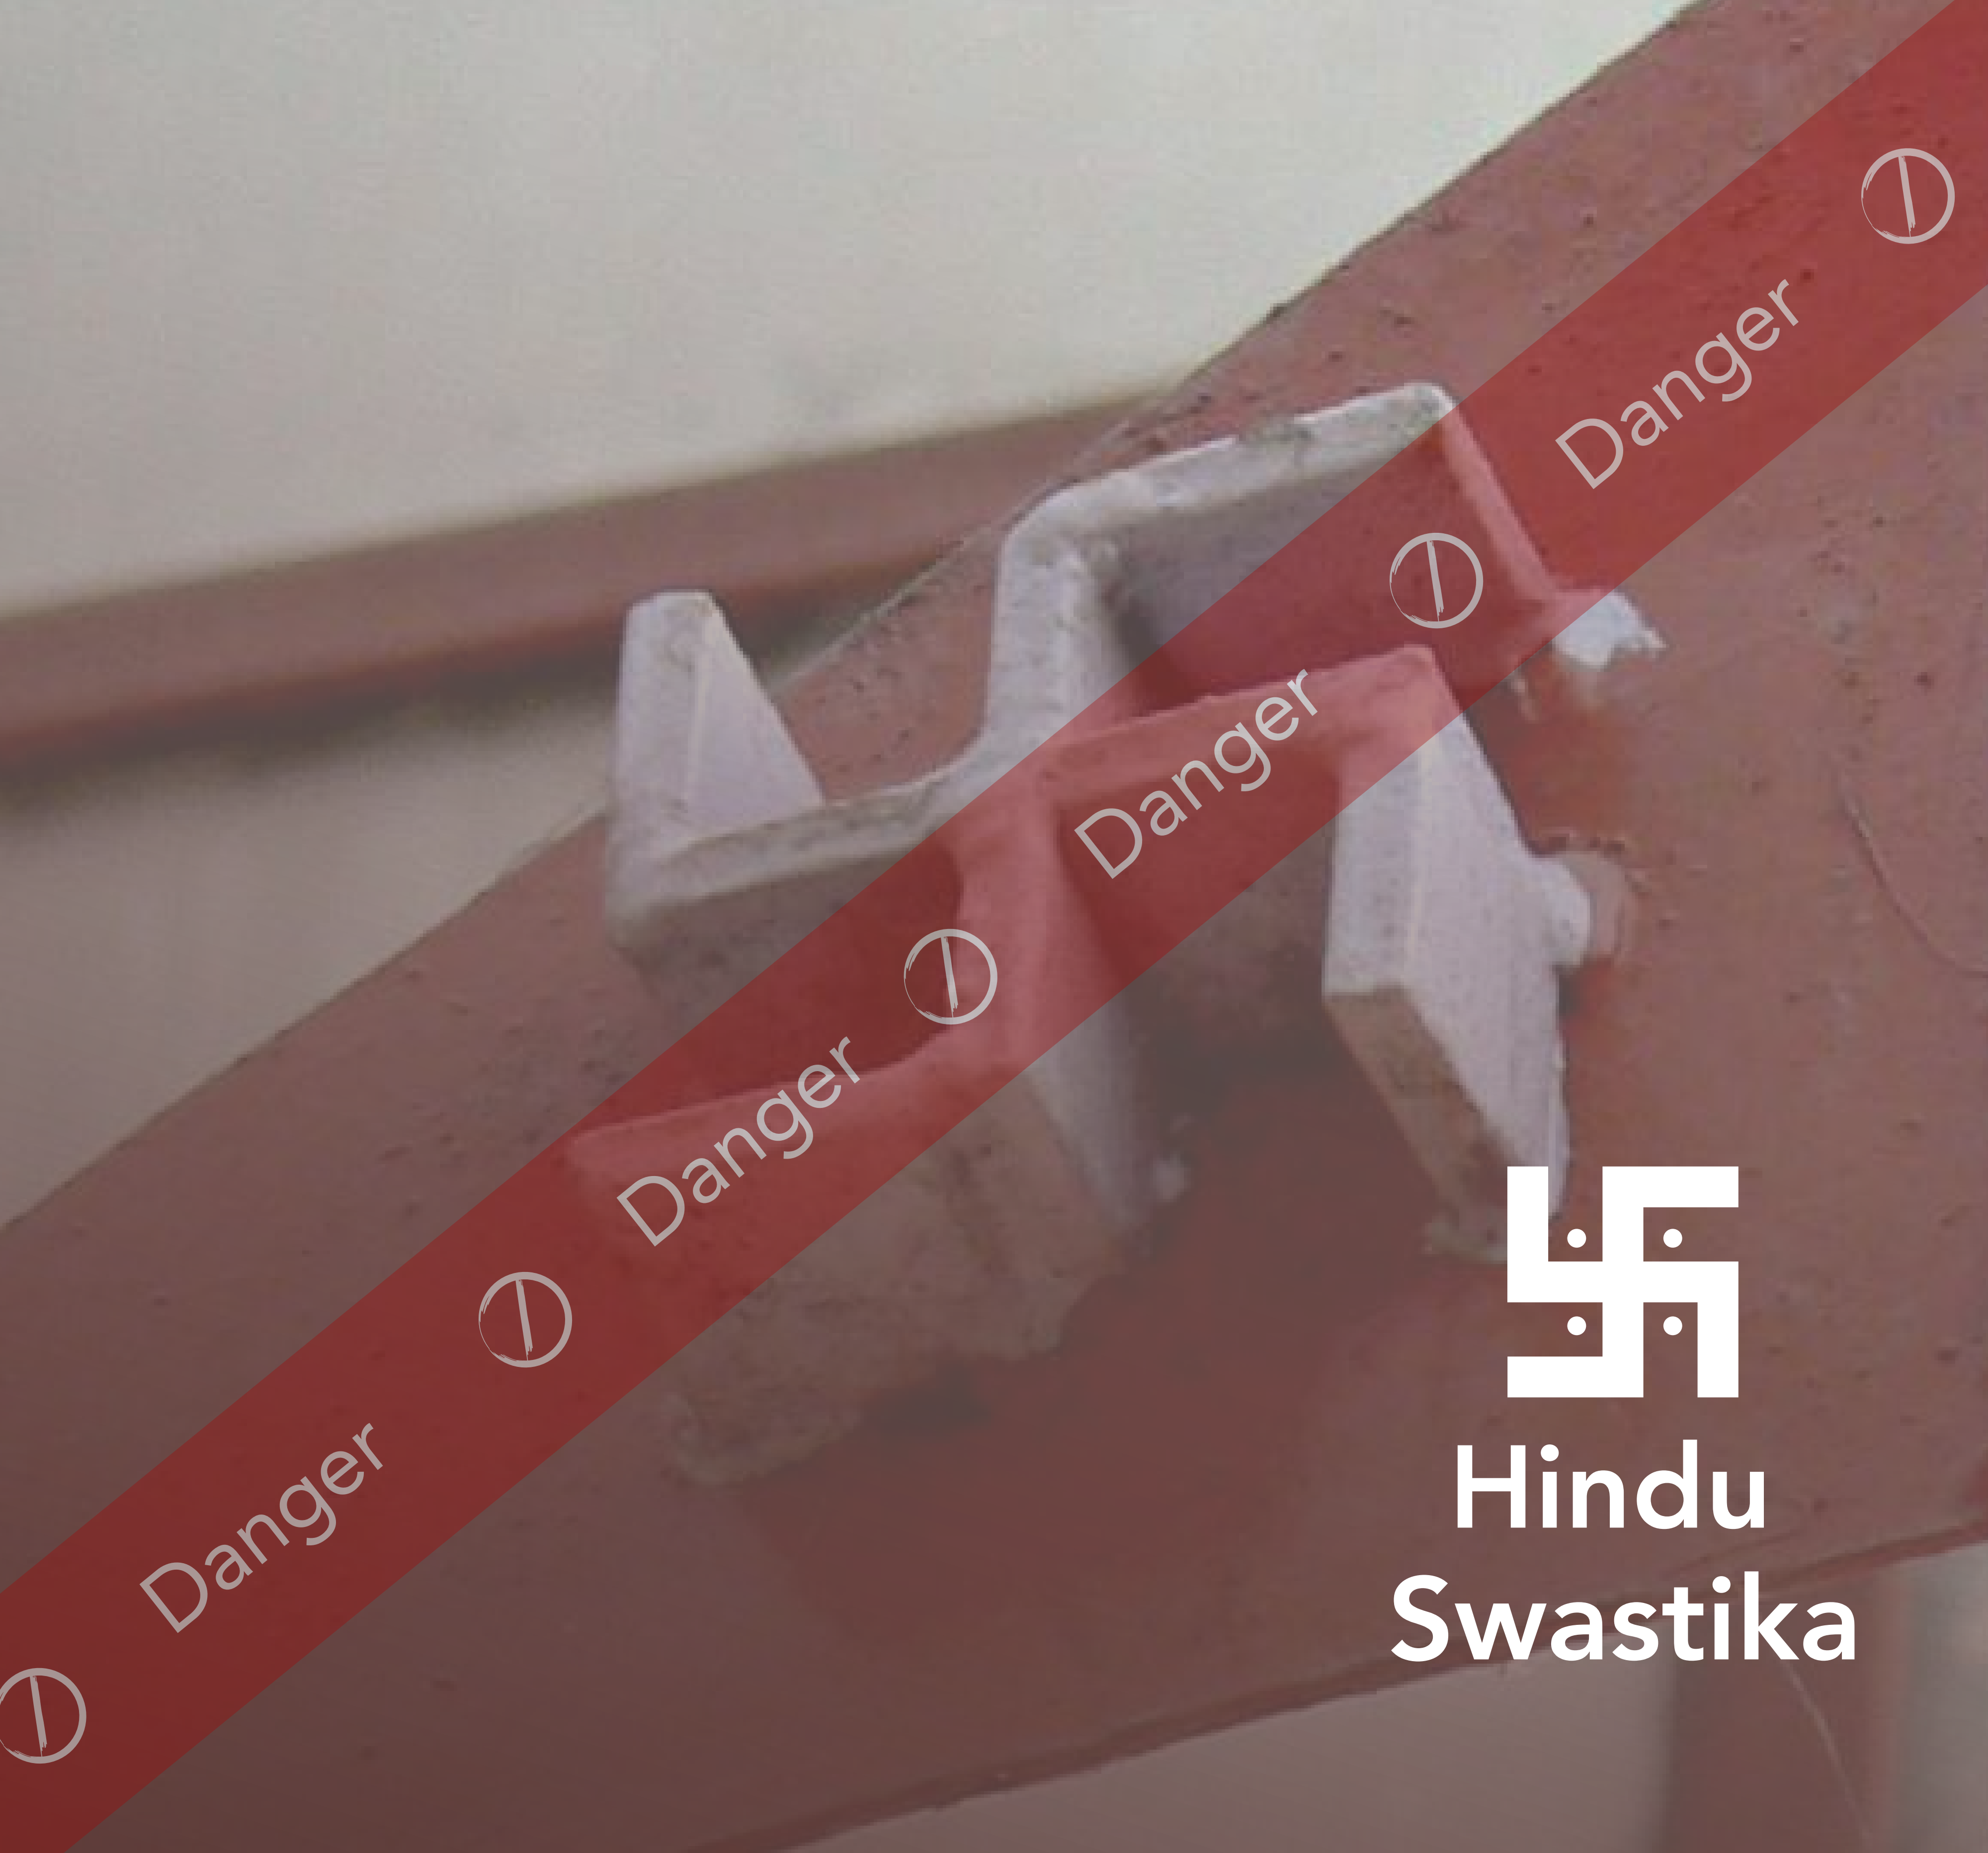

Secret Symbols used by the practitioners of Reiki - healing using universal energy - who claim that by repeating it a number of times the potential energy from within it is called, thus, they are able to heal using this even with long distances.In addition to that, it symbolizes dangerous beliefs like the symbol (sei he ki) which can be translated to: God and human can become one.

Lotus
flower

One of the “spiritual” commonly spread symbols in Hinduism and Buddhism, it is a flower that holds many meanings related to the eastern philosophy. It grows in muddy water, which it immerses itself in at night, and then emerges open in the morning. In Buddhism, the “opening of petals” symbolizes “enlightment”, and it means: the transformation of the soul from being a clay matter to attaining divinity and spiritual awakening - Nirvana - through the waters of personal experiences.
